As this dark army advances through the northern lands, they will destroy everything in their path. When King Ragnar and the princes arrive for the scenes, everything is black and white. Because the levels are clear and the dark army wins the color, it is returned to the northern lands. Princesses are rescued one by one. Northern Tale 4 is an electronic game of time management/strategy and the fourth part of the popular Northern Tale series. If there are other games at play, click here. Clear levels and full figures with this essential game guide. The Northern Tale 4 Walkthrough Gameplay Guide is divided into four parts: (1) General game instructions; (2) Chapter 1; (3) Chapter 2; and (4) Chapter 3. Each chapter 3 and 45 level of the game is examined by pointing to tips and tricks to get through this odyssey. Content Game modes Northern Tale 4 has three game modes: Normal, Multiplayer, and No Time. No Time is not in-time and contains tips throughout the game. The other two spaces have been scheduled. If a player is unable to complete the level in time, they must repeat the level again to progress to the next level. In Multiclick mode, Vikings or employees can be programmed to perform up to two tasks at a time, allowing resources to accumulate faster. Settings The following gaming experiences are fully customizable: audio, volume, screen size, screen resolution, and beeps can be turned on or off during playback. The goal of the game is to restore camps destroyed by the black army by building, repairing, clearing, or removing items according to the to-do lists on each level's Quest button. When the mission is complete, it will be green. You must clear the level on the Tasks tab. Resources – Food (Ham Leg), Wood pile (iron ore) and Golden Pile (gold) are collected and stored in storage and are created every minute of the game. Buildings such as the Druid tent, workshop, player camp, iron ore and gold mines will be built and upgraded throughout the game. Once the Druid tent is built, wolves, spiders and magic flowers can be expelled from the camp. Niiden The workshop can accommodate up to 30 resources. Player camp – When a player's camp is updated, a Viking or employee is won. Mines produce either iron ore or gold. When the mines are emptied, the trees are covered. Roads and bridges will be repaired. The following items are destroyed or banished in each chapter: Evil Root, Wolves, Evil Stone and Evil Flowers. The evil root is a dead tree highlighted in red. When the level is ready and Evil is selected, the scene becomes full. The evil stone is a rainbow stone found on the outskirts of the camp. When the selected water and color are returned to the camp. Updates are purchased using Resources. Magic Stump offers free resources that are renewed throughout the level of play. TIP: If a player clears the level in advance, collect the maximum number of resources before leaving the level. PowerUps: A downloadable button that offers bonuses in the form of spells to boost the game. Spells can add an extra Viking, cause Magic Stumps to automatically regenerate and double resource production revenue. READING GAME In the Northern Lights 4 there are three chapters of gaming. In each chapter, save one of the three princesses: summer, autumn and winter. Each chapter has 15 levels. Princesses are saved from the 15th of every chapter. There are a total of 45 levels of gameplay. Chapter 1: Levels 1 through 15 See chapter one for each task before playing. The following game guide only provides tips and tricks.
